

Chris Greninger

Web Developer

Profile

I'm a multi-disciplinary web developer with over a decade of experience in front and back end development using the LAMP stack with a lot of design experience sprinkled in over the years. I am among those who love learning new skills.

Skills

This is a list of the primary languages and skillsets I use and how proficient I feel in that particular area.

●●●●○ **PHP**

Experience in general PHP for 15+ years and CakePHP for the past 10 years.

●●●●○ **HTML**

Knowledge of HTML5 concepts and frequently use Bootstrap as a base for fast and well-tested UI integrations and responsive design management.

●●●●○ **CSS**

Advanced knowledge of CSS3, LESS, & SASS

●●●○○ **Javascript**

I'd consider myself fluent in Javascript. Most of my experience has revolved in and around jQuery. I love Javascript & I have plenty to learn.

●●●○○ **MySQL**

I haven't hand-written a SQL query in quite a while but I have decent database design skills. I can read and troubleshoot queries and have used frameworks to query and connect relational data between tables.

●●●●○ **Design**

While I don't have the opportunity to do it much these days, I still love it. Logo design, UI, layout, print work, I've done it all. I received 10 awards in 3 years while working for a newspaper as a designer. Adobe Creative Suite is my toolbox. I'm well-versed in all of the apps in this collection.

I have several languages and frameworks I'm actively learning or have other experience or interest. These include:

Python, Laravel & CakePHP 3 (PHP frameworks), Applescript, shell scripting, cron jobs, ajax, MERN stack development.

Work History

Web Developer

Brookside Studios // Jan 2010-Current

Develop, debug, and deploy web projects using modern web technologies. We primarily used CakePHP, LESS CSS, Javascript, and HTML.

Freelancer

1999-Current

Web development, graphic design, IT support.

System Administrator

Times Record // 2008-Jan 2010

Manage servers, desktop clients, printers, and networking equipment. I continued to also act as a graphic designer in this role (as time allowed) as well as developing some in-house Mac-based software.

Ad Composer / Graphic Designer

Times Record // Oct 2002-2008

Design print ads for our hundreds of clients, everything from small ads to full page, full color ads. During this time I also designed many covers for special sections and other graphical needs. I was promoted within this timeframe to Classified Makeup (advertising page layout).

Web Developer

Christian Online // Jul 2002-Oct 2002

Develop and maintain our website and general graphic design.

Chris Greninger

Web Developer

Education Background

Offline Mode

I have 3 big hobbies in my life when I'm not coding. Woodworking, photography, and playing drums.

I have 2 boys and a wonderful wife. They are the most important thing in the world to me and the reason I work so hard.

I am an eagle scout and have served as a scoutmaster. I am an active member in my church.
